Professional Summary

Results-driven Data Scientist with 4+ years of experience developing machine learning models, predictive analytics solutions, recommendation systems, forecasting applications, and production ML systems.

Technical Skills

Python, SQL, Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, AWS, Docker, FastAPI, MLflow, PostgreSQL, Power BI, Tableau, Git

Professional Experience

- Developed customer churn prediction models achieving 91% accuracy.
- Built recommendation systems increasing engagement by 18%.
- Deployed machine learning APIs using FastAPI and Docker.
- Performed EDA, feature engineering, and model optimization.
- Created dashboards and reports for business stakeholders.
- Collaborated with engineering teams on production deployments.

Projects

Resume Screening & Matching System using TF-IDF, Logistic Regression, and cosine similarity.

Customer Churn Prediction Platform.

Sales Forecasting Solution.

Education

Bachelor of Technology (Computer Science), 2020
